

Faces & Voices is excited to announce a new initiative – The Association of Recovery Community Organizations at Faces & Voices of Recovery (ARCO). ARCO unites and supports the growing network of local, regional and statewide recovery community organizations – linking recovery community organizations and their leaders with local and national allies, and providing training and technical assistance to recovery community organizations. All groups that are led and governed by the recovery community are welcome to join.

Members receive a number of benefits:

- Organizational capacity and sustainability building
- Technical assistance opportunities
- Increased organizational visibility
- Use of the ARCO and Faces & Voices names

Among the [benefits of membership](#) is the opportunity to participate in an annual 3-day training event, the Executive Directors Leadership Academy. ARCO recently hosted the first annual Leadership Academy in Detroit, Michigan. [Click here](#) to learn more.

The Association of Recovery Community Organizations at Faces & Voices helps us build the unified voice of the organized recovery community nationally and fulfill our commitment to supporting the development of new groups and strengthening existing ones.
